

Year

Country

7.01K
Country Average(TWh)

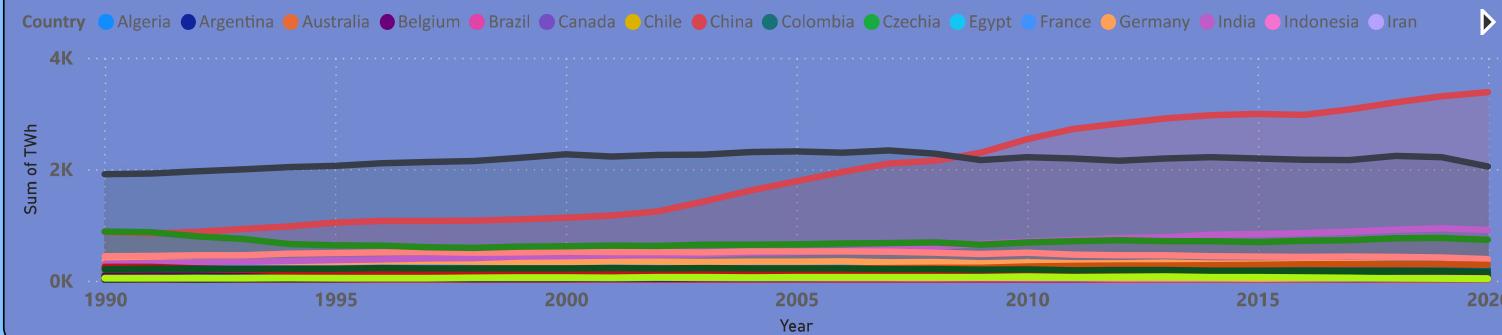

Continent

- Africa
- Asia
- BRICS
- CIS

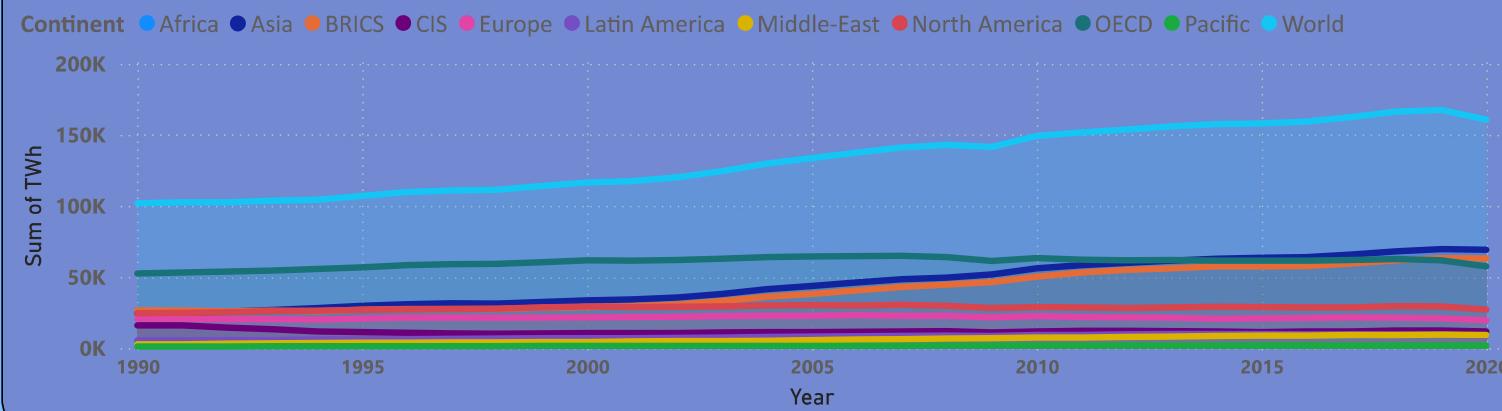

1.02M
Continent Average(TWh)

Global Energy Consumption Over Time

Country wise consumption over the years

Continent wise energy consumption over years

Energy Production: Sources

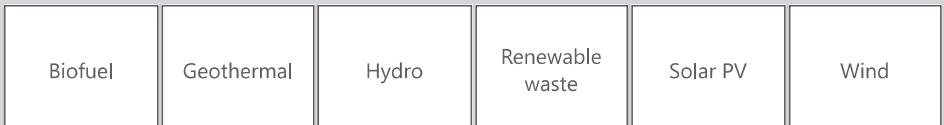

Non-Renewable Sources

45.28K

Sum of Contribution (TWh)

Renewable Sources

2.64K

Median of Contribution (TWh)

6.06K

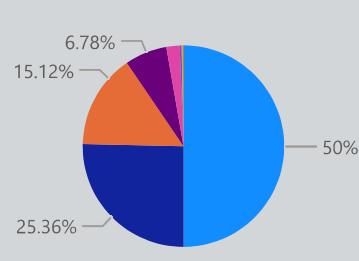

Standard deviation of Contribution (TWh)

36.75M

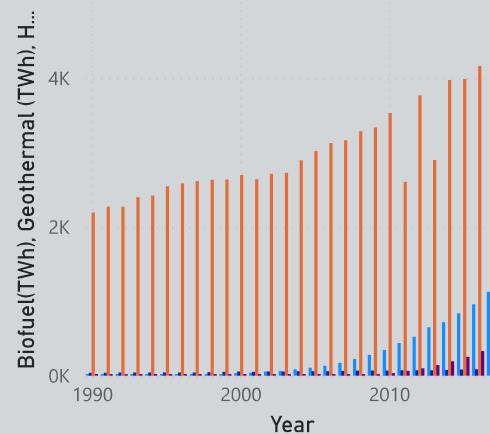

Variance of Contribution (TWh)

Non-Renewable Sources of Energy

Mode of Generation

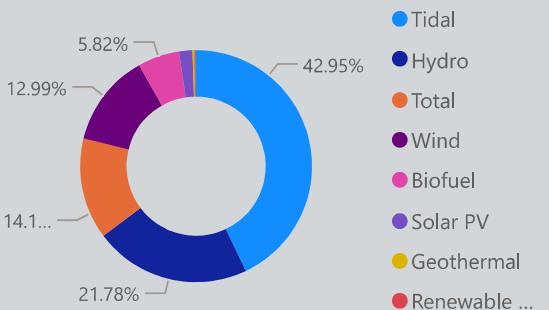

Renewable Power Generation: 1997-2017

Renewable sources of Energy

Mode of Generation

Power Generation : Top 20 Countries

53.34

Sum of Geothermal (TWh)

1.02K

Sum of Biofuel(TWh)

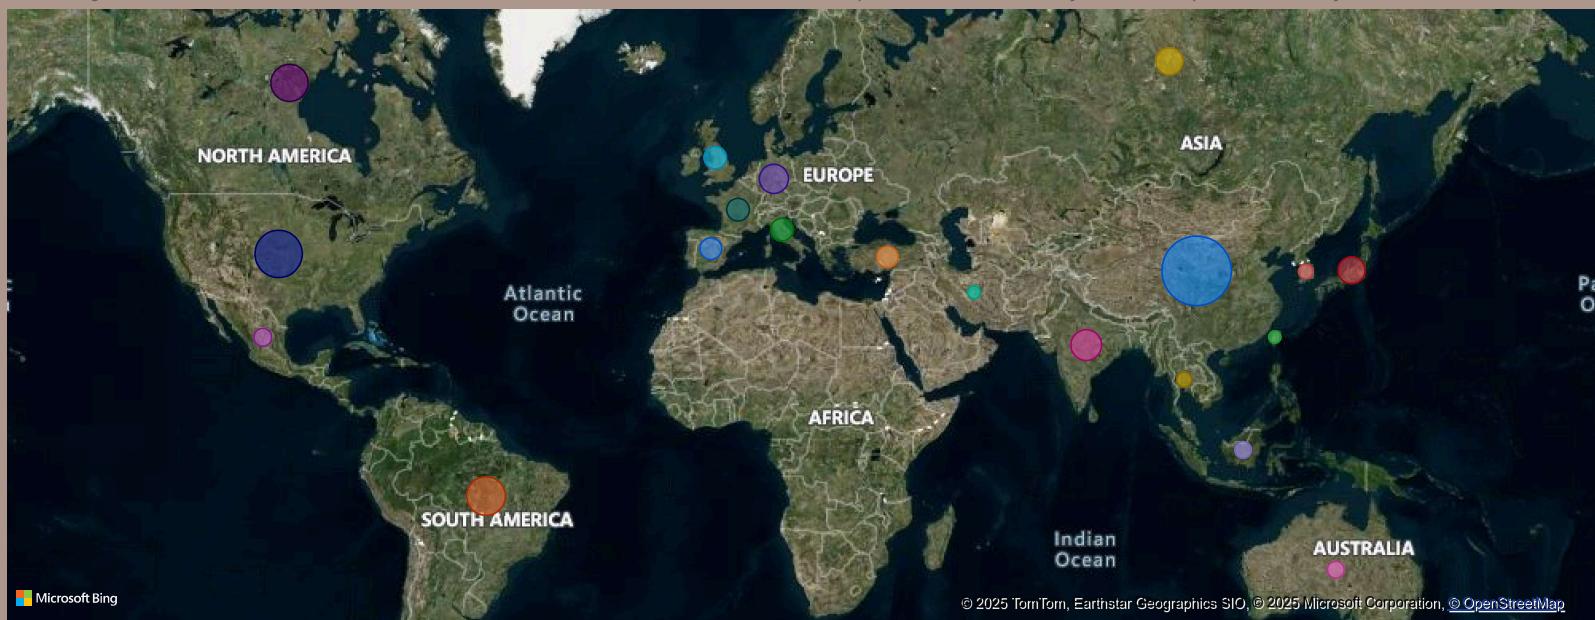

3.04K

Sum of Hydro(TWh)

396.56

Sum of Solar PV (TWh)
